

Clearvale Ecosystems

Clearvale by BroadVision is the first network of networks for the social enterprise. Based in the cloud, Clearvale offers flexibility, agility, and the ability to collaborate with customers, partners and employees more effectively and create a meaningful presence on the open social web.

The Clearvale® HR Solution

Clearvale Ecosystems for HR is a fluid environment for administrators and employees to navigate seamlessly through the lifecycle of employment, from recruitment to new hire on-boarding.

HR professionals can simultaneously manage public networks for job applicants, immigration lawyers and benefits brokers, alongside private networks for their global enterprise – all from one central, secure log-in.

Features include the ability to:

- Navigate through multiple Clearvale Networks from one central log-in
- Promote job postings via an out-facing Clearvale Network for recruiting
- Utilize widgets such as blogs, freeform blocks, photos and videos to convey the company's unique culture
- Collaborate upon and share documents – including benefits forms, job postings, applications and more seamlessly between all networks
- Interface with external benefits brokers and immigration lawyers
- Decide who to follow and what to follow and receive notifications for activities pertinent to your content
- Communicate via status messages within a network or a group, or through direct communication
- Create blogs, wikis, discussion forums, and polls to accumulate and organize knowledge into folders and project groups
